ous for most of the outsiders. Afterward could easily believe the stories told of his conduct in Pretoria. When I read them it always recalled my last sight of him tramping down the rallroad track toward Manila, with a blanket and canteen over his shoulder, under a frightful tropical sun, but apparently as happy as one could be. Many of the English officers here have spoken to-day of the reputation which he earned in the Transvaal, not only for bravery, but for coolness and good judgment under all circumstances, most unusual in a man of his age, and their regret is as sincere as that of the Americans."

To "remove one's hassock" is, it appears, the English way of expressing disapproval of one's rector. Mr. George Russell uses the phrase in his latest budget of society gossip-wherein he discusses changes in Sunday observance. Leaders of fashion, he observes, do not go to church at all. Some of them "think it silly," as the wife of a statesman innocently explained to the archbishop of Canterbury. Others are too day for rest; still others live faithfully and iterally up to the Catholic doctrine, that Sunday is a feast. One rich maiden lady was discouraged in her habit of churchgoing by the unlucky attempt of the incument of a Mayfair chapel to make religion as Lord Melbourne indignantly phrased it. 'invade the sphere of private life." The blundering clergyman asked her if she could not get on with less than three footmen under her butler, and give the wages saved to a fund for the sick and poor. This was obvious priestcraft, and the good lady resented it by "removing her hassock."

LITERARY NOTES.

W. L. Alden in his London literary letter says of Robert Barr that he is by far the most brilliant conversationalist he has ever met. Mr. Barr, who has ceased to be an American or even a Canadian, has a beautiful home in Surrey.

The people of Amesbury, Mass., have started a movement for the erection of : monument to the memory of the poet Whittier, who lived in their town for fifty years and did much of his best work there. It has taken them a long time to reach the discovery that such a monument would be a proper tribute.

The Pope has read "Quo Vadis," and recently Henryk Sienkiewicz received a letter from the Vatican expressing satisfacthe novel. The Polish author has also received from Leo XIII, a marble tablet of the time of Constantine, recently found in There were various ways of obtaining for which is not given to the public by the the Ostriano Cemetery, the scene of some Roman citizenship. One might be a native of the incidents of "Quo Vadis."

The writer of "Notes of a Bookman" in Harper's Weekly says of Mr. Charles Major's forthcoming novel: "A year ago I had the pleasure of listening to Mr. romise that it will be no whit behind mind, it is a far better story. It will take its title after the heroine, "Dorothy Vernon." Mr. Major's recent illness may delay the publication of the book until in the fact of being "free born."

Mrs. Sara Beaumont Kennedy, whose last book, "Joscelyn Cheshire," has been a good selling book during this past summer, is the daughter of several generations of prominent Americans, beginning with Johathan Edwards. She is also a direct descendant of a framer of the Con- | sought another to come, a city eternal in stitution, a signer of the Declaration of Independence, and a colonial Governor. The family annals are so complete that no wonder there is much that is real in the citizenship of Paul and see what it sein the Carolinas.

Mrst Anna Farwell De Koven, whose novel "By the Waters of Babylon" was recently published, is not unknown to the reading public. Several years ago her "Sawdust Doll" attracted favorable comment, and she is the author of a number of magazine articles. Mrs. De Koven, who is well known in Chicago, being the daugher of ex-Senator Charles B. Farwell, is not only a beautiful woman but a brilliant one. Her husband is Reginald De Koven. formerly of Chicago, who has written the | was there for the vast multitude? And music of so many successful light operas.

Their home is in New York. Anthony Hope Hawkins is a more nervous being than any young prince in his own novels. Indeed, sometimes as one looks at him it is hard to realize that he is not one of the pale-faced young monks who figure so often in the mediaeval story. Just the right height for such a monkthat is to say, not very tall-with a wellshaped, compact but almost fleshless body with a face of almost deadly pallor, high the captain "was afraid." Such is the sad cheek bones, eyes that have a certain look of tension and almost of pain, beautifully chiseled, very thin and very mobile lipssuch is the famous romancer.

Every one loves a story, said Prof. Richard Burton in an address at Chautauqua, and scholars are awakening to the fact of dominant literary form of to-day, as is lishers' sales. The novel is an all-covering tyrant that has choked the life out not my position. The modern novel is a great and potent power for good or evil, and it remains with us to make the good abiding and to exclude the evil.

PAUL'S CITIZENSHIP: THE LESSONS TO BE LEARNED FROM IT.

By Rev. Stanley Billheimer, D. D., Pastor West Washington Lutheran Church, Washington, D. C.

"And Paul said, But I was free born." One day early in the history of the Christian church the throng of worshipers at the old Jewish temple was suddenly turned into a mob. And the object of all this fury was a little old man of benign countenance and halting footstep. He had entered the temple with the best of purposes, but was already receiving the blows and curses of his Hebrew brethren. Had it not been for the speedy arrival of the Roman guard Paul's mission would have then and there come to an abrupt end. The mob loudly accuses him of the great sin of preaching the gospel to the gentiles. But the captain of the guard, not understanding their Hebrew, supposes he has captured a great criminal.

According to custom Paul is bound, his back is bared and the officer stands ready to ply the lash in the hope of extorting a confession. But in a moment the whole scene is changed by a word from Paul: "Is it lawful for you to scourge a man that is a Roman and uncondemned?" And now it is the captain's turn to tremble, for he has bound a Roman. Humble explanations follow and Paul, the Roman, is given the freedom of the castle to await his trial before the Sanhedrin.

Leaving him here at this point in the story let us look further into his claim and see what lessons we may learn from Paul's citizenship.

of a province which conferred that right upon all born within its limits. Again, one might purchase his freedom, paying varying sums according to his station in life born of parents who had previously in Knighthood in dramatic interest. To my some manner obtained their freedom. The chief captain said, "With a great price obtained I this freedom," But Paul glories

However, it is not alone of Paul's Roman citizenship that we wish to speak. He had also another birthright-he had experienced that "being born again," without the heavens, "whose builder and maker is God." Let us then look at this double romance of Joscelyn and the colonial days | cured for him and from what it delivered

CITIZENSHIP'S VALUE.

I. Roman citizenship insured comparative safety. Human life was held as of little worth in those days. Even in our present boasted age of progress we shudder at tales of Armenian massacres. Think what it must have been when might made right, when the hand that held the scepter too often was red with blood. What hope much less for the offender, political or social. Many a criminal was executed to

save the trouble of a trial. But to all this there was one exceptionthe Roman. His life was almost sacred. Notice the difference between Paul and the common prisoner. He did not cry out in fear or loudly protest his innocence. He knew that he was safe. Just a word and commentary on the Jews, that Paul was safer in the hands of the Romans than among his own people.

In like manner, only more so, is the Christian secure. For Romans did suffer sometimes, through malice. But if Rome cared for her own, surely heaven cares for its redeemed souls. Christian men need not proved by our public libraries and by pub- fear. Paul did not tremble. But the Philippian jailer did; and Felix did; and of the older literary forms. Some think it | the captain and sailors of that ill-fated ship is the decadence of literature, but that is did. And how many since have qualled before the power of the man of God. Crime and guilt hang their heads in shame, and evil combinations lose their power. Amid all these the Christian stands secure. He who clothes the grass of the field will not suffer his own to lack any good thing. He who feeds the sparrow will give his children bread. All the powers of hell cannot pluck them out of the hand of God. True, A considerable number of citizens hold a the Christian may lose his earthly life, but different opinion from that expressed by his citizenship stands secure, and he but the Board of Health in regard to the dis- hastens home the sooner, to enjoy his rest

> loosed again. His very person was sacred. subjected to the meaner experiences of treatment of Paul and Christ. There were cruel mockeries, thorns, stripes and a sham trial. But here all was respect and courtesy and due process of law.

Paul did suffer afterward, when the name of Rome had lost its magic. But he could can sting more than the lash of conscience It has made men mad. It has driven them to self-destruction. It has forced the cry, deliver me from this body of death?" What voice! Yet with such power Christ endows This being the case, the private testing of the Christian. You may take all else from him, but you cannot deprive him of his No wonder that serrow, misfortune, calam ity, fail to depress him. His interests are far higher than this world, and his soul never suffers the remorse of the guilty. Roman citizenship secured the right of appeal. Paul had been grossly misjudged. As the Egyptian leader of an insurrection he would have been summarily dealt with, but as a Roman he must first be heard in his own defense. He could not even be bound, "uncondemned." This right often stood Paul in good stead, and through its exercise in appealing to Caesar, he finally realized his cherished hope—"to preach at Rome also."

HEAVENLY CITIZENSHIP. But the time came when men might apnever slumbers nor sleeps, happily for us. For we are often misjudged here. Christ Himself was misunderstood. Even to-day many do not appreciate His mission to earth. We are not surprised, then, that men often fail to make a proper estimate of His doctrines and worship; that they impugn the motives of His followers and ridicule their humble, self-sacrificing lives. Christian silently appeals to God and receives as the token of approval that peace

which the world cannot understand. In conclusion, then, "take heed thou doest, for this man is a Roman." If men feared to harm one of Caesar's favorites, let us look to it that we do not injure one of God's children. They are but hulike all mankind, but they have all heaven at command. For them God will make bare His strong right arm. For them He will summon His legions of an-Let us beware how we incur the disone of these little ones which believe in me, it were better for him that a millstone were hanged about his neck and that he be power and military prowess. But for how much more does the Christian stand in

chare?-H. D. G. One hundred dollars. Which is the largest Christian denomination in the world?-H. R. The Roman Catholic. What was the population of Gulfport, article on this topic in an encyclopedia Miss., in 1900?-H. S. One thousand and sixty. In what year was Waco, Tex., founded? It was surveyed as a town in 1849 and corporated in 1850. Is there a society of vegetarians in

poor claim to present before him. The angels do not always rejoice over a sinner How is it customary to arrange the term saved when the country mourns the loss of insurance on a vessel and cargo? 2. How can I read up the methods of marine Let us look to it, then, that we have a heritage in God's kingdom; that our names

know that if our earthly house of this the port of destination. Insurance on the earnings of the vessel for carrying cargo begin and terminate with the cargo insurance. 2. Its literature is vast; you should find some of it in any sizeable library, in encyclopedias, if not in books of its law.

Where can a book be secured giving the geology of crude oil formations?-L. W. A. At a bookstore, naturally, or perhaps the will do. Petroleum and natural gas always occur together and in porous beds contained between impervious strata, all the strata being more or less arched. The arch formation enables the contents of the porous beds to separate according to their respective specific gravities; at the greatest depth is brine, above this oil and atop this the gas. An impermeable cover to this bed Yes; the Rev. H. S. Clubb, 1023 Foulkrod | is an essential of the formation. The pressure under which oil and gas are found is hydrostatic and identical with that of arte-

I can remember the time when the common potato bug was styled the Colorado beetle and was deemed a novel nuisance. Now, did he come from Colorado, or what is his history? 2. How long does it take one to reach the adult stage?-G. W. L.

This insect was first described in 1824 as feeding on a wild plant of the potato fampotatoes in Nebraska-this in 1859. From then it spread steadily, reaching the Atlantic coast in 1874. Meanwhile it had picked up the name. 2. A little over a month; the eggs hatch in about a week, two to three weeks old, the beetle issuing in from seven to ten days.

Will you give me an idea of the cost of the power employed in making a barrel of flour from wheat? 2. Did our Indians practice tattooing generally? If so, for what purpose?-W. A. M.

We find it stated as from 11/2 to 3 cents for water power and from 41/2 to 61/2 cents for steam power. 2. Most tribes practiced it. It was considered decorative and served for purposes of identification and ransom, the latter especially among the women when captives. Then lines were made on the inner side of the forearm to indicate the length and value of strings of beads used as currency. Prairie and lake Indians tattoed over diseased spots to cast out the offending demon, and it has been said of Virginia Indians that their tattoo marks indicated rank and social status.

IRRESPONSIBILITY OF LABOR.

Injustice of the Relative Positions of Employer and Employes.

Unnamed officers of the United States Steel Corporation are quoted in a Pittsburg dispatch as saying that they will enter into no negotiations with the Amalgamated Association for a settlement of the strike until the association has become incorporated, and invested with legal reponsibility and standing in a court of law. It is further said that the fact that the association has no standing in court was the candy butcher of circuses, recent dic- settled three years ago, when it attempted to force the United States Tin-plate Company to keep an alleged wage contract. If the association is incorporated then it can be sued for damages and levies can be made on its assets and it cannot escape responsibility for its acts. This report is more likely due to general knowledge of the facts by the correspondents in Pittsburg than to any explicit statement by the officials of the Steel Corporation. It is the obvious thing to say now, that the labor organizations must be put on the same legal footing with the employing organizations. It has long been said that compulsory arbitration was impossible, because it was impossible to force the laborers to obey an order, while any decree of a court could be enforced against the clerk compel the landlord to show his ganized labor by deliberately breaking its contracts, and the sentiment is fast forming which must ultimately force such a reorganization of labor unions as will give to them a legal standing in court. When this time comes strikes ought to be fewer and the disputes between the employers and the employed ought to be settled by suits in the courts rather than by boycotting and bulldozing outside. We are Please give the names of the members of | making progress in the right direction, and the President's Cabinet at the present time. In spite of all the regrettable incidents of the steel strike we need not be discour-
